PRACTICAL SCIENCE SUBJECT DAY FOR EARLY CAREER AND NON SPECIALIST TEACHERS (BIOLOGY, CHEMISTRY AND PHYSICS)

Face to face training at Birmingham City University, HELS Faculty, School of Education: SCT 201, City South Campus, Westbourne Road, B15 3LT

Lunch and refreshments will be provided on the day

Face to face training will run in Birmingham for Biology, Chemistry and Physics subject enhancement. The courses will focus on developing non-specialists understanding of the curriculum, particularly GCSE level. During the day, strategies will be developed to help with effective teaching of the tricky bits of the curriculum and participants will be signposted to resources that will help to develop their teaching.

You will be able to:
- Improve your subject knowledge of then chosen subject and topics that relate to the curriculum
- Develop strategies to teach the tricky parts of the curriculum
- Use models and understand common misconceptions to ensure teaching of the subject is effective
- Utilise resources to help with development of subject knowledge

To book onto one of the subject enhancement training days, please see the links below. Each course will cost £185.

If your school or MAT sends three members of staff, then one course will be FREE!

Biology - Tuesday 6th July 2021, 09:00-15:00
